

Hey mate
want to hear
something great?

He's a great detective
He's always on time
So don't even think about
committing a crime

All of his cases
we can crack
- matter what the crime is
I won't slack

He has beady eyes
AND a checked green hat
He uses a gun
and keeps on track

He has a magnifying glass
and lots of supplies
He asks lots of questions
lots of who's, and why's

Dr. Watson helps him
along the way
He's a great friend
and tries to keep it that way
I would fear him if I
was a crook
as Sherlock Holmes
knows every trick in the book
