

Storylines Notable Books

Background

The Storylines Notable Book List was established in 2000 to reflect the wide-ranging achievements of New Zealand authors and illustrators.

The Storylines Notable Books list allows for the inclusion of anthologies and works by New Zealand writers and illustrators published internationally.

The Notable Books List is selected by a panel made up from the Storylines community, of current children's literature professionals. These include past and present members of the Storylines management committee, all of whom have a wealth of experience and knowledge in the field of children's literature and many have served as judges for the New Zealand Post Book Awards (and its previous incarnations) and the LIANZA children's book awards.

The panel meets regularly throughout the year to discuss recently published books.
